

EUROPEAN COMMITTEE FOR RAIL

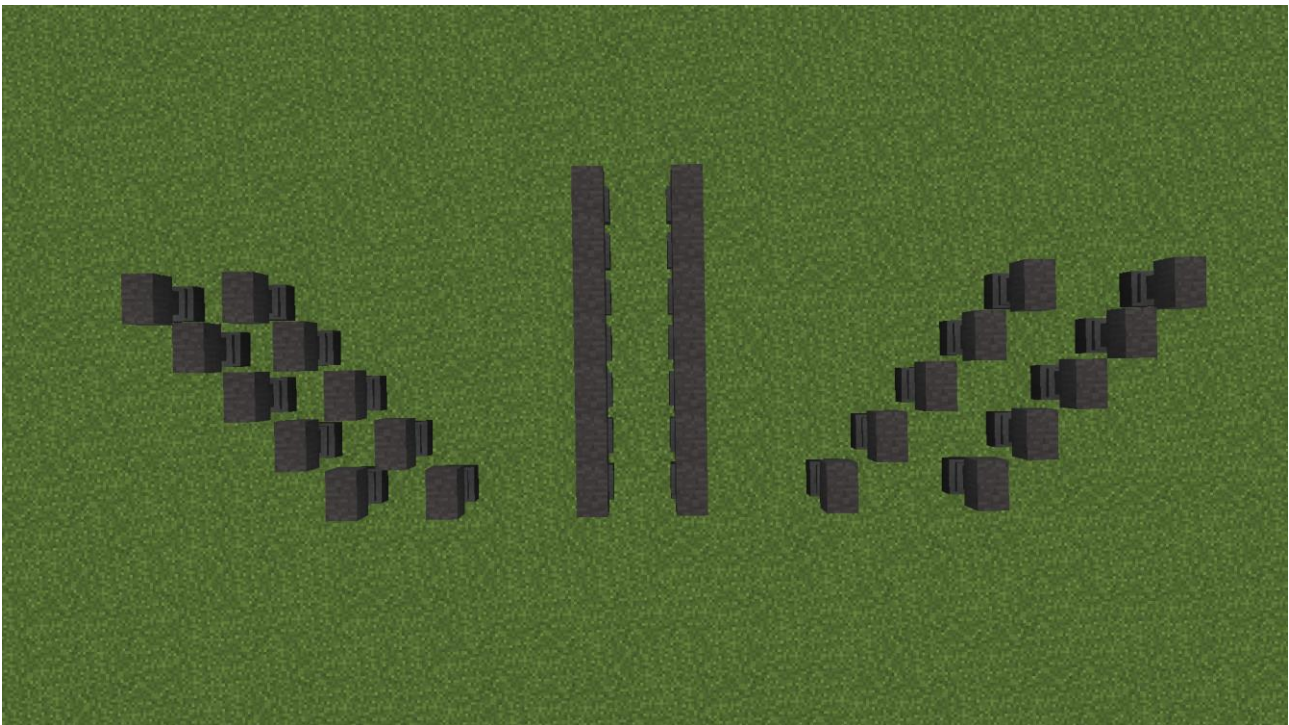

NOTICE: THE FOLLOWING DOCUMENT IS WRITTEN ONLY IN ENGLISH LANGUAGE.
TRANSLATIONS FROM OTHER LANGUAGES ARE PERMITTED.

Following document shows standard design decided at meeting of 8th
Friday 2020 by European Committee For Rail (ECFR).

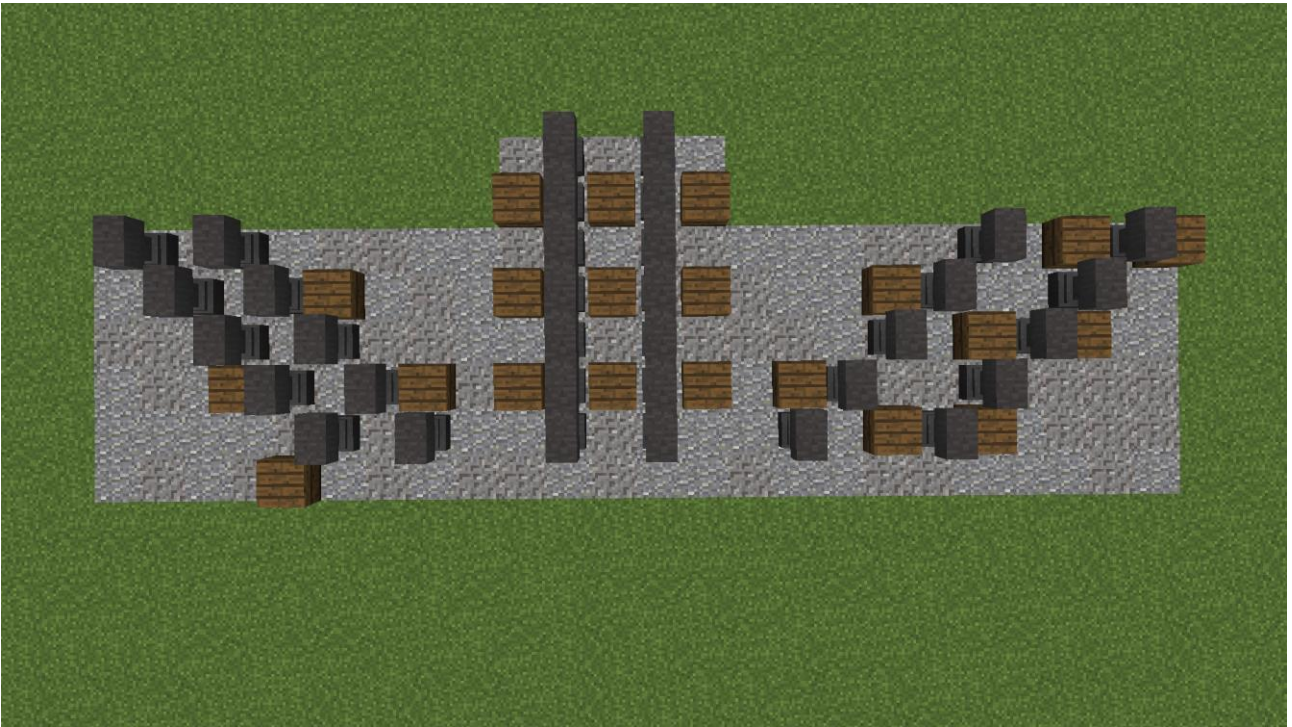

Chapter 1: Rail Standard

Rail must be composed by 2 anvil separated by one block. Other decorations
of rail depend by country. Is permitted use minecraft rail between the 2
anvil, but it's not obligatory.

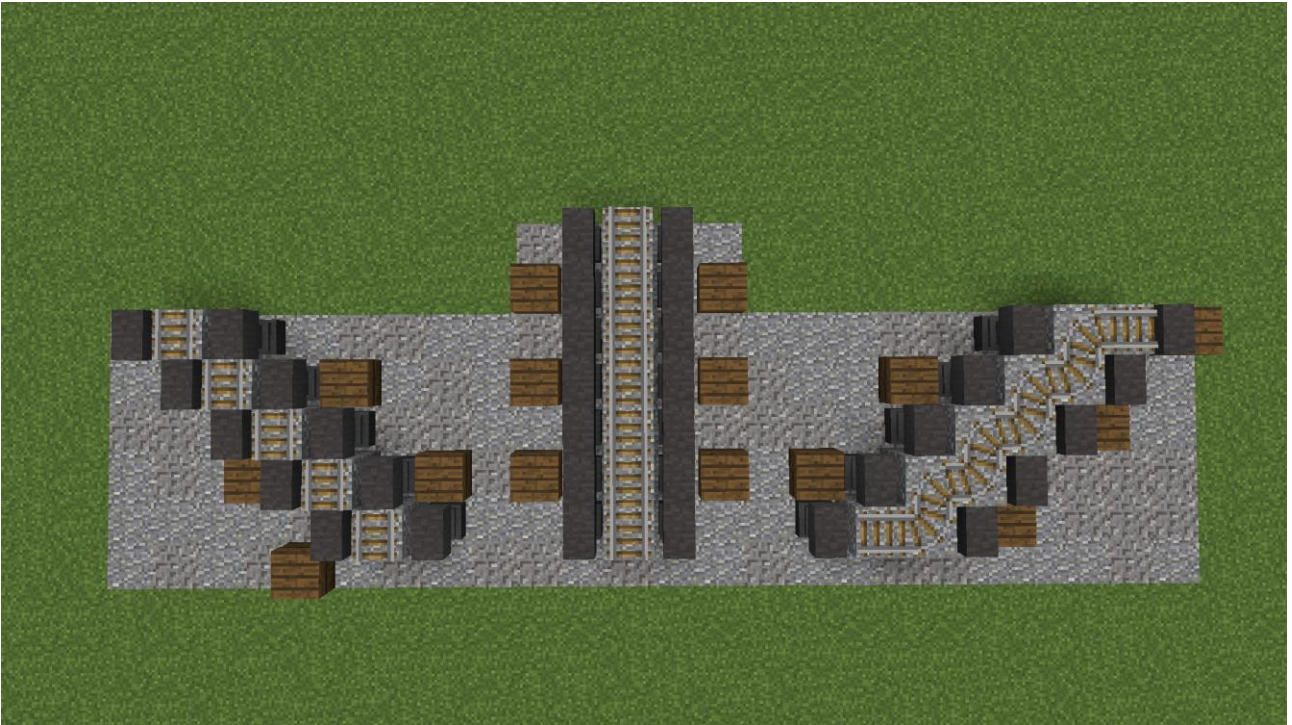

Following images show example for possible design:

Example: standard rail without decorations

Example: standard rail with decorations

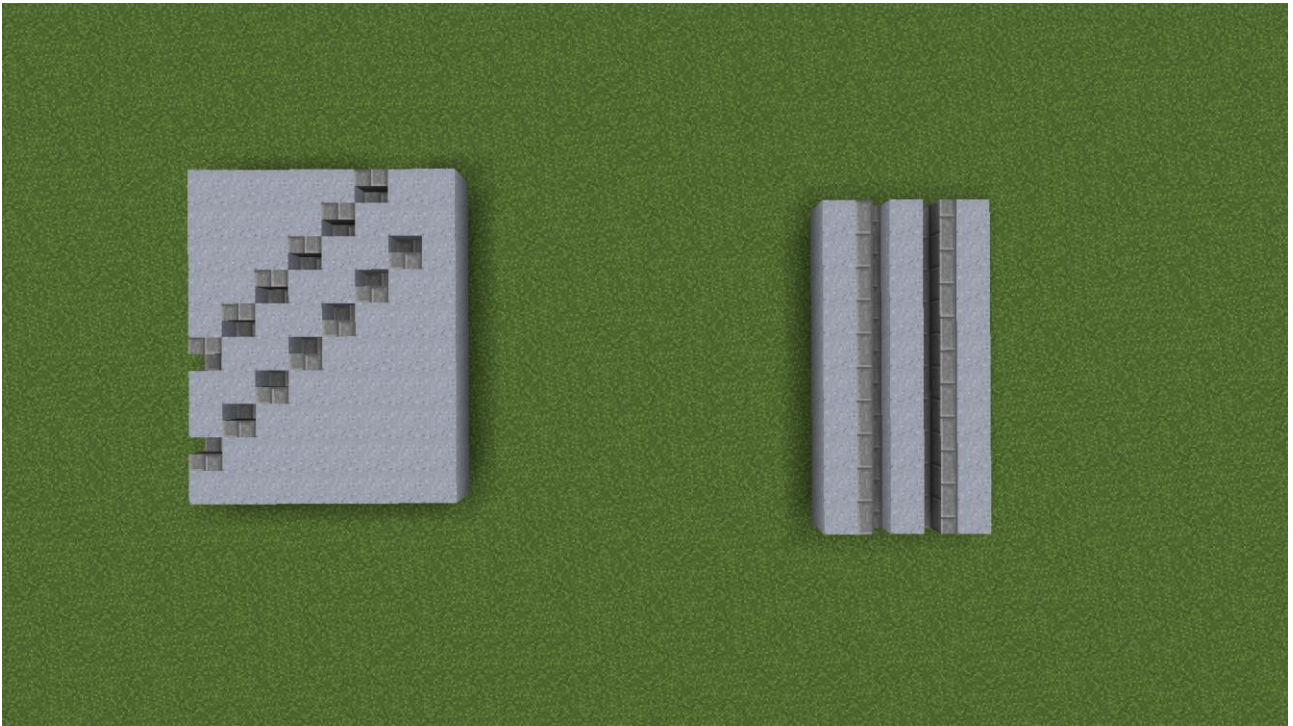

Example: standard rail with minecraft rail on the center

Chapter 2: Tram

There aren't any restrictions about tram, you are free to choose your design.

Now, you can see any examples about a rail's tram design:

Best Regards
